

The EVA CHALLENGE

This is a standing challenge to all OSC sailors to set a round trip sailing record.

The EVA oil platform is at 33° 39.864' N 118° 02.969' W.

When you sail from NPB to Long Beach you usually pass between the oil platforms Emmy and Eva. EVA will be on your port.

The Challenge

Start sailing by crossing a line between the Newport Harbor buoy and the end of the West jetty. Sail to Eva, round it (in the direction of your choice) and return to the starting line. No engine. The round trip is about 21 nm.

If you think that you and your crew set a noteworthy time please report the details to the Commodore so it can be recorded and posted.

EVA Challenge records (ordered by best time 1st for each boat)

DATE	SKIPPER	TIME	BOAT	COMMENT
1/23/06	John Kraus	3hrs 34 min	Oasis II	Record
11/27/01	Robert Dorsky	3hrs 47 min	Oasis II
